## Experience

Present	<b>Contract Web Developer</b> offering my skills and expertise in various Web site design and development projects. I also train and consult for other developers, local businesses and organizations in web design and development.
Summer 2008 to Summer '09	<b>Teacher</b> of the Multimedia Web Development I, II, and Graphics Theory II courses at Fleming College. Duties included preparing and delivering lectures and assignments covering basic and advanced techniques using Adobe Flash, Adobe Photoshop, and video editing software such as iMovie and Windows Movie Maker.
Summer 2007 to Summer '08	<b>Web Design and Flash Developer</b> with YourOnlineAgents.com. Duties included designing and developing Flash Web sites for real estate agents in the local area and across Canada.
Fall 2006 to Fall '07	<b>IT Help Desk Services</b> at Fleming College. Duties included Help Desk operations such as technical support via phone, email, and face-to-face contact with staff and students. Other duties included client side wireless networking support, remote assistance of staff workstations, ghosting, and staff/student account troubleshooting.
Summer 2006	<b>Teacher</b> at Beacon Communications. Duties included introducing students to the basics of computer use and standard applications such as Microsoft Word, Excel, PowerPoint as well as file system structures and navigating the Web.
Fall 2004 to Fall '08	<b>Wireless Network Administrator</b> at Severn Court Student Residence. Duties include setup, support, and troubleshooting of wireless networks for over 300 clients.
